

FREELANCE PROJECTS

Parlez Live | Tech Lead

JAN - AUG 2020

- Created interactive design prototypes for ~15 screens & developed a mobile MVP with live-streaming functionality to connect celebrities and communities.

Figma • Framer • Flutter •
Agora SDK • Firebase

KetoRecipes | Mobile Developer

FEB - JUN 2020

- Built a keto planner app, implementing meal scheduling/logging, steps tracking, and more.

Flutter • MobX • Firebase

Women's World | E-commerce Developer

SEPT - NOV 2020

- Set up a self-hosted e-commerce clothing store & implemented a custom semi-automated product upload flow, increasing efficiency by 200%

WooCommerce • Tasker • FB Ads

AWARDS AND HONORS

Google Code-in | Grand Prize Winner '17

Drupal • Social Auth • Documentation

- Selected as one of 50 winners in an international competition organized by Google
- During 2 months, I contributed to Drupal, an open-source CMS powering 3+% of the web
- Mentored future students in the ensuing two years, providing feedback for 400+ students.

Hack The North | XE Prize Winner '19

Flutter • Figma

- Chosen as 1 of 13 winners from 1500 students during Canada's biggest hackathon
- Worked as part of an international team to build a real-time AR currency converting app

National Science Quest | Gold Prize '18

Flutter • Public Speaking

- Won 1st prize from 500+ students for the prototype of Studento
- CEO of Mauritius Commercial Bank awarded my team an internship after witnessing our pitch

PROJECTS

MoHack

2017-2018

- Founded and directed the first and largest student hackathon in Mauritius

Studento

2018-2020

- Designed, created, marketed and eventually sold a student assistant app for CIE students that garnered 1000+ monthly users.

Cyberstorm

2017-Present

- Founding member of Mauritian open-source developer org
- Led numerous code workshops and competitions
- Engaged in 4 Internet Engineering Task Force (IETF) Hackathons

EDUCATION

St Esprit College

2015-2019

- Mathematics, Computer Science, & Physics (A-Level)

- Led a team of ~10 to build a robotic arm & other projects over summer, which we presented at Infotech '16—the nation's biggest tech exhibition.

- Represented the school/country's badminton team in various competitions.
